

22. A process for obtaining the agent of claim 12, which comprises cloning the LBP gene in an adenoviral vector behind a strong promoter and transferring the gene into the affected liver cells.

23. The process of claim 22, wherein said strong promoter is a CMV promoter.

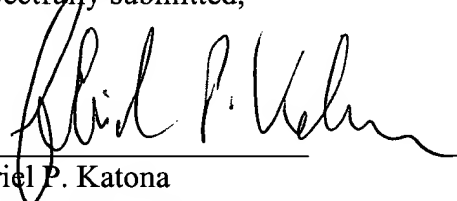

Remarks

Claims 12-23 are in the application.

It is respectfully submitted that no new matter was added to the enclosed substitute disclosure. Enclosed herewith is a redline copy to show the changes that went into the substitute disclosure, together with a change listing.

Favorable action is urged.

Respectfully submitted,

Gabriel P. Katona
Attorney of Record
